

# Brentford Group Practice

## **INFLUENZA IMMUNISATION 2018**

We will be running walk-in clinics for FLU VACCINATIONS commencing on Wednesday 26th September 2018.

Free flu vaccinations are available to everyone over 65, people with heart or chest problems, renal disease, diabetes or lowered immunity. If you have asthma and need more than a simple blue inhaler then you also qualify.

## **SHINGLES VACCINATION**

If you were born on or after 02/09/42 or you are aged 78 or 79 years, you are entitled to receive a vaccination to protect you against shingles. This can be given at the same time as your flu vaccination.

If you are eligible for either/both of the above, please come along to the surgery between 12.00-12.30pm, Tuesday to Friday.
